## The Government-wide Strategic Solutions (GSS) for Desktops and Laptops Program

The GSS for Desktops and Laptops Program was established in Office of Management and Budget (OMB) Memo M-16-02. Memo M-16-02 requires federal civilian agencies to leverage the GSS Best-in Class (BIC) contracts for laptop and desktop purchases (unique or super high-performance computers may not be available via the GSS contracts). The program is specifically designed to standardize configurations and provide computers that meet 80% of the federal government's laptop and desktop needs.

Configurations and specifications are reviewed annually and updated (as necessary) by the Workstations Category Team (WCT), which is composed of the GSS BIC solutions and 20 other federal agency contributors.

### Current (V6) Configurations and Specifications

Small Form Factor	Mini-Tower	High-End Desktop	Lightweight Laptop	Laptop	High-End Laptop	Tablet
8 GB RAM	16 GB RAM	32 GB RAM	8 GB RAM	8 GB RAM	16 GB RAM	8 GB RAM
256 GB SSD	500 GB SSD	256 GB SSD and 1 TB HDD	256 GB SSD	256 GB hard drive	500 GB SSD	128 GB SSD
Four USB ports	Four USB ports	Six USB ports				USB (3.0 or C)
			11" or larger display	13" or larger display	14" or larger display	9" or larger display
			3.5 lbs. or less	5 lbs. or less	6.5 lbs. or less	

- All GSS V6 machines are compliant with EPEAT, ENERGY STAR®, and the Trade Agreements Act (TAA).
- The three-year standard warranty includes wearable items such as keyboard and battery in laptops and “Keep Your Hard Drive.” Warranty options for four and five years do not cover wearable items.
- A full list of the specifications can be found on the [GSA AdvantageSelect<sup>SM</sup>](#) homepage.

# GSA's AdvantageSelect<sup>SM</sup> GSS Blanket Purchase Agreement (BPA) Program

The fundamental purpose of the GSA AdvantageSelect Government-wide Strategic Solutions (GSS) BPAs is to provide a streamlined process and to leverage the government's buying power for procuring laptops, desktops, peripherals, and ancillary supplies and services. The BPAs will be available for use by the federal government (civilian and military) – as well as by state, local, and tribal government entities through GSA's Cooperative Purchasing Program.

The GSS BPAs are FAR-compliant, pre-competed, short-term, brand-name (or equal), single-award BPAs for all Dell™, HP®, and Lenovo® laptop and desktop products that meet GSS standard configurations and options for configuring to agency needs. The period of performance is one year with two one-year options (for example,

September 4, 2019 – September 3, 2022). BPA pricing is for quantity of one for each machine offered. Discounts are available when larger quantities are solicited. The BPAs are available to all federal, state, local, and tribal agencies/entities eligible to purchase from the GSA Multiple Award Schedule (MAS) program.

The GSA AdvantageSelect BPAs were issued in accordance with FAR 8.405-3(c)(1) and awarded using the Lowest Price Technically Acceptable (LPTA) source-selection process. BPAs established under the Federal Supply Schedule are exempt from the requirements in FAR Part 6. In accordance with FAR 8.405-3(c)(1) (Single-award BPA), government buyers may place orders directly under the established BPA when the need for the supply or service arises. With

the GSA AdvantageSelect BPAs, additional competition requirements are not required. A buyer simply selects an item, enters the quantity, and pays for the order – without worrying about managing an extended competitive process.

The BPAs were solicited and issued using a competitive 100% Small Business (SB) set-aside, brand-name (or equal) acquisition strategy. Consideration was not restricted to any one particular vendor or brand. FAR 8.405-6 (Limiting sources) does not apply, and agencies are not required to complete a Limited Sources Justification.

GSS BPA desktops and laptops can be customized to meet customer requirements. All in-scope options and accessories on a vendor's GSA contract can be offered on the BPA and used to configure the base GSS machine to agency needs. Options include, but are not limited to:

- Base machine: larger SSD, CPU upgrade, RAM upgrade, graphics card upgrade
- Peripherals: monitors, docking stations, carrying cases, speakers, keyboards
- Services: warranty upgrade (four- and five-year), imaging, secure imaging (GFE server-based), asset tagging, ship direct/ready for use (vice customer warehousing/configuring)

The GSA IT Hardware category offers supplemental program support for our customers, including:

- Order management support (regular meetings)
- Prices paid information/reports
- For larger quantities and/or establishing an agencywide catalog, GSA will assist in seeking additional discounts

To enable demand consolidation and price stabilization, GSA's BPAs offer an agency catalog option that allows a customer to establish a catalog against a BPA through which they can negotiate an agencywide price based on approximate spend and quantity for a fiscal year, even if ordering happens at multiple buying offices across the globe. This allows the entire agency to take advantage of bulk pricing and shortened acquisition lead times. The GSS BPAs currently have several agencies – including SOCOM, HHS HQ, CDC, and GSA – utilizing the catalog process.

## For More Information

For answers to general questions about GSA's GSS Desktop and Laptop BPA Program, please email us at [workstations@gsa.gov](mailto:workstations@gsa.gov). We also offer a [video on YouTube](#) that demonstrates how to use GSA AdvantageSelect<sup>SM</sup>.

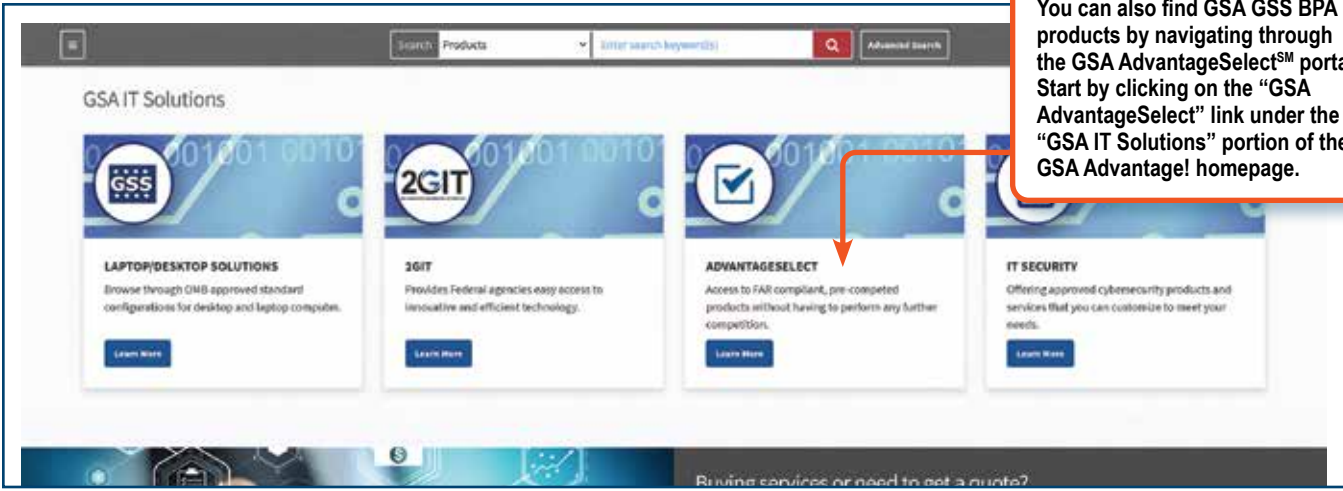

# How can I Find the Products Available under GSA GSS BPAs in GSA Advantage!®?

You can find GSA GSS BPA products in two ways:

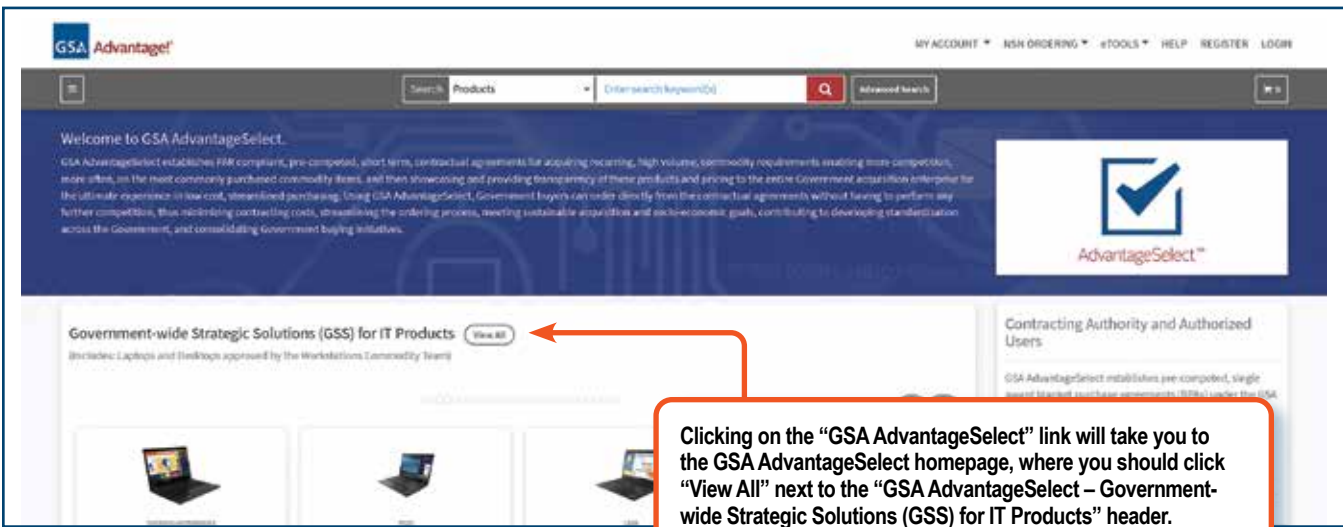

First, you can use the strategic sourcing menu to select the BPA holder that provides the item(s) you want. For example, if you are looking for Dell™ products you would click on “MCP Computer Products, Inc.” under the “GSA AdvantageSelect™ – Government-wide Strategic Solutions (GSS) for IT Products” header in the drop-down menu.

The screenshot shows the GSA Advantage! website interface. At the top, there is a search bar with the text "Search Products" and a search button. Below the search bar, there are several promotional banners for "GSA FMP", "GSA's Maintenance Repair Facility Supplies (MRFS) Solution Video", and "Privacy and Divided Space Furniture NSIe". A "Strategic Sourcing" banner is also visible, with a dropdown menu open showing a list of products. The dropdown menu is titled "Products" and lists various categories and BPA holders, including "AdvantageSelect - Government-wide Strategic Solutions (GSS) for IT Products" and "MCP COMPUTER PRODUCTS, INC.". A red arrow points from the text box above to the dropdown menu. Below the Strategic Sourcing banner, there is a "How are we doing?" section with a feedback form. Further down, there are "Special Product Categories" including "ENVIRONMENTAL" and "DIS". At the bottom, there is a "AbilityOne" logo and a "Strategic Sourcing" banner with a "Send us your feedback!" button. A second red arrow points from the text box below to the "MCP COMPUTER PRODUCTS, INC." entry in the dropdown menu.

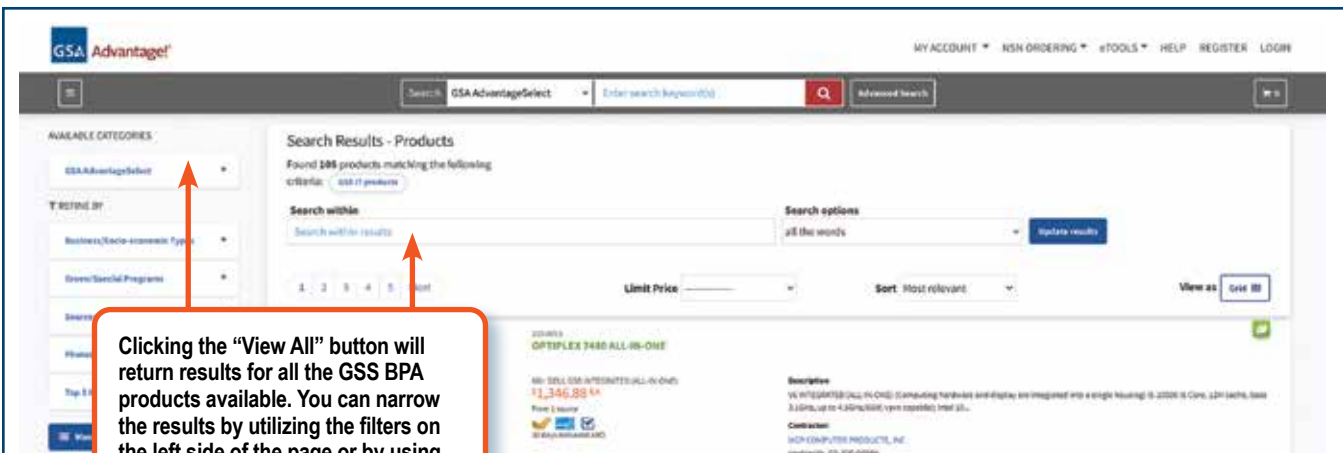

When you click on “MCP Computer Products, Inc.” you will go to a GSA Advantage!® search-results page that displays all of the products currently available under MCP’s GSA GSS BPA.

You can also find GSA GSS BPA products by navigating through the GSA AdvantageSelect<sup>SM</sup> portal. Start by clicking on the “GSA AdvantageSelect” link under the “GSA IT Solutions” portion of the GSA Advantage! homepage.

Clicking on the “GSA AdvantageSelect” link will take you to the GSA AdvantageSelect homepage, where you should click “View All” next to the “GSA AdvantageSelect – Government-wide Strategic Solutions (GSS) for IT Products” header.

Clicking the “View All” button will return results for all the GSS BPA products available. You can narrow the results by utilizing the filters on the left side of the page or by using the “Search within results” section above the products.

# GSA AdvantageSelect<sup>SM</sup> Ordering Instructions

1. Go to [www.gsaadvantage.gov](http://www.gsaadvantage.gov)
2. Go to the “Strategic Sourcing” section
3. Click on the “Products” drop-down menu
4. Click on **the name of the BPA Holder's products you would like to see** (this will take you to their GSA AdvantageSelect BPA catalog)

The screenshot shows the GSA AdvantageSelect website interface. At the top, there is a navigation bar with "MY ACCOUNT", "NEW ORDERING", "TOOLS", "HELP", "REGISTER", and "LOGIN". Below this is a search bar with "Products" selected and a search button. The main content area features several promotional tiles: "PIN/CAC Login is Here", "GSA FMP (GSA Federal Marketplace Winter 2021 Release)", and "GSA's Maintenance Repair Facility Supplies (MRFs) Solution Video". A "Strategic Sourcing" section is highlighted with a red circle '2', containing the text "Leveraging Government buying power to get you the best value and price." Below this is a "Products" dropdown menu, highlighted with a red circle '3', which lists various product categories and BPA holders, including "ADM FEDERAL SALES", "MCP COMPUTER PRODUCTS, INC.", "INNOVATION WORLDWIDE, INC.", "AdvantageSelect - IT Hardware Products", "MIPRES TECHNOLOGY SOLUTIONS, INC.", "VIA FEDERAL, INC. (D.O.A. HYDROCOM)", "OSI FEDERAL TECHNOLOGIES INCORPORATED", "AdvantageSelect - IT Software Products", "DELL MANBEITUS L.P.", "FSI JANSAN (GSA Global Supply Acquisition)", "JANSAN (Sag) Brushes, Brushes, Mops & Sponges", "JANSAN (Sag) Cleaning Components & Related Cleaners", "JANSAN (Sag) JaniSan - Multiple", "JANSAN (Sag) Motorized Floor Cleaning Equipment & Accessories", "JANSAN (Sag) Non-Motorized Cleaning Equipment and Trade Receipts", "JANSAN (Sag) Paper Products and Related Cleaners", "JANSAN (Sag) Personal Hygiene and Related Cleaners", and "JANSAN (Sag) Trash Bags". A red circle '4' highlights the "ADM FEDERAL SALES" entry in the dropdown menu. Below the dropdown menu is a "How are we doing?" section with a feedback form. The bottom section is titled "Special Product Categories" and includes "ENVIRONMENTAL", "DISASTER RELIEF & PANDEMIC PRODUCTS", and "AbilityOne".

# GSA AdvantageSelect<sup>SM</sup> BPA Catalog

## Selecting a Device or Monitor

1. Type within the search bar the model name or part number of the device or monitor you want – or simply scroll through the page to see all available models.
2. Select the model desired by clicking on the model name (in green text). This will bring up the detailed description of the device or monitor, including the features and configuration of the base unit (see next page).

The screenshot displays the GSA AdvantageSelect BPA Catalog search results page. At the top, the GSA Advantage! logo is on the left, and navigation links for MY ACCOUNT, NSN ORDERING, eTOOLS, HELP, REGISTER, and LOGIN are on the right. A search bar contains 'GSA AdvantageSelect' and a red circle '1' highlights the search input field. Below the search bar, the page shows 'Search Results - Products' with 105 products found. On the left, there are filters for 'AVAILABLE CATEGORIES' (GSA AdvantageSelect) and 'REFINE BY' (Business/Socio-economic Types, Green/Special Programs, Sources, Photos, Top 5 Manufacturers). A 'SHIPPING' dropdown is set to 'show all', and a 'MINIMUM ORDER' dropdown is also set to 'show all'. A blue box at the bottom left offers customer service contact information. The main content area lists three products:

- 310-4613 OPTIPLEX 7480 ALL-IN-ONE** (highlighted with a red circle '2'): Price \$1,346.88 EA. Description: V6 INTEGRATED (ALL-IN-ONE) (Computing hardware and display are integrated into a single housing); i5-10500 (6 Core, 12M cache, base 2.8GHz, up to 4.8GHz/16W, vpro capable); Intel 10... Contractor: MCP COMPUTER PRODUCTS, INC. contract: 65-35F-0889N. Includes: [i] [d] [w] [t] [v]. BPA: 47QFCA19600K. Other Terms and Conditions apply for this BPA.
- 310-4612 OPTIPLEX 7080 SFF**: Price \$979.80 EA. Description: V6 DESKTOP SMALL FORM FACTOR (S-10500 (6-Core/12MB/12T/3.1GHz to 4.5GHz/65W, vpro capable); Intel 10th Gen i5T SP800-147 comp, UEFI 2.7, Secure Boot, Ext w/ SLAT w/ Intel vT-x EPT... Contractor: MCP COMPUTER PRODUCTS, INC. contract: 65-35F-0889N. Includes: [i] [d] [w] [t] [v]. BPA: 47QFCA19600K. Other Terms and Conditions apply for this BPA.
- 310-4610 PRECISION 7820 TOWER**: Price \$2,555.81 EA. Description: V6 PERFORMANCE DESKTOP TOWER; Xeon Gold 6222 (3.8GHz, 3.9GHz Turbo, 4C, 10.4GT/s 2UPL, 16.5MB Cache, HT109W D0R4-2933, vpro capable); Intel 10th Gen i5T SP800-147 comp, UEFI 2.7, ... Contractor: MCP COMPUTER PRODUCTS, INC. contract: 65-35F-0889N. Includes: [i] [d] [w] [t] [v]. BPA: 47QFCA19600K. Other Terms and Conditions apply for this BPA.

# Detailed Description of the Device, including the Features and Configuration of the Base Unit

## Selecting Quantities, Options, and Accessories

The screenshot shows the GSA Advantage! website interface. At the top, there is a search bar with the text "Search Products" and "Enter search keyword(s)". Below the search bar, the product details for "1V3B7AV" are displayed. The product is an HP ELITEBOOK X360 830 G7 NOTEBOOK. The price is \$1,550.69 EA. There is a quantity selector set to "1" and an "Add to cart" button. A callout box labeled "2" points to the "Select options and accessories" link. Another callout box labeled "1" points to the "Add to cart" button. The callout box shows a detailed view of the "Options and Accessories Tool" with a list of options such as ALTERNATIVE CPU, ASSET TAGGING, CABLE LOCKS, CABLES & CONNECTORS, CARRYING CASE, DOCKING STATION, HARD DRIVE UPGRADE, HEADSET, and IMAGING - PRE-SUPPLY.

1. Enter the desired quantity and click “Add to Cart.”
2. The product has customizable options and accessories. Please review each category using the **options and accessories tool** by drop-down menu (see below) to determine if any are integral to purchasing the product.

### Options and Accessories Tool

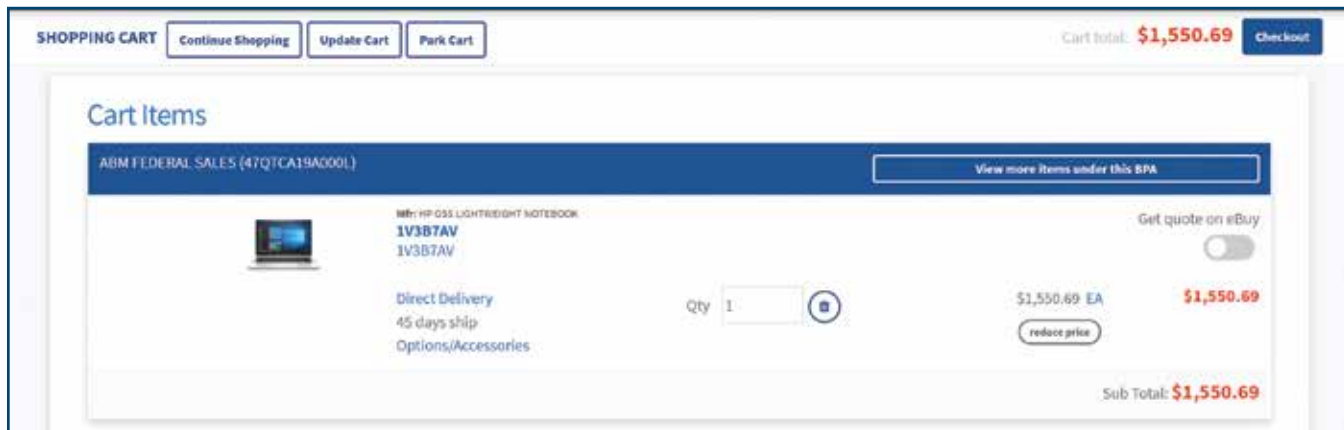

Use the tool to customize your device(s) to meet your needs. After you've selected the desired options, click on “**Update**” to view pricing on the left.

When done, click “**Add to Cart**” to continue to the shopping cart and make your purchase selection.

## Completing your Order and Checkout

After you've added items to your **cart**, you can **continue shopping** or **check out**.

### Checkout Review

From the Checkout Review page, you can add or change your method of payment, add or change your shipping address, change your customer information, and add details to requisitions and purchase orders using the "PO Note" field.

### Review and Submit Your Order

Check the accuracy of the information you provided and make any necessary changes. When you are ready to submit your order, click the "Process Order" button. Once you place your order, GSA Advantage!® will send you a confirmation email.

## Direct Ordering

If you cannot complete the purchase through GSA Advantage! and would like to make a direct order with the BPA holder, you can make the purchase one of two ways. If you have a one-time requirement, you can issue a BPA call order. If you are going to have recurring requirements and would like to establish a catalog, you can create an agency-specific catalog to take advantage of aggregate demand and increase the speed of acquisition on those recurring requirements.

### How do I Issue a Call Order?

To issue a call order, you simply need to contact the BPA holder using the information above, provide your requirements, and ask for an all-inclusive quotation. Once the quotation is received, check to ensure all prices are equal to or less than their BPA pricing. It is always recommended to contact the vendor and ask for additional discounts on their quotation prior to placing an order. Issue your order.

### How do I Create an Agency Catalog?

The GSA IT Hardware category, in conjunction with our BPA holders, has helped create a buying process for customers who want to realize the savings associated with aggregated demand and make more than one purchase via our GSS BPAs. To start the process, a customer provides estimated quantities along with the machines and configurations required for each fiscal year. Our BPA holders will seek additional discounts from the original equipment manufacturer (OEMs), based on those estimated quantities and configurations, and create an agency-specific catalog so that customers can cut orders against catalog without further competition of the requirement. The catalog is refreshed quarterly to accommodate technology updates and changes to the OEM product line. With a little work up front, this process streamlines the acquisition process, reducing acquisition time to approximately five days; reduces price variability; and helps all agency buying units realize greater cost savings.
