

MAS Refresh 30 Clause and Provision Changes

In accordance with E.O. 14275, Restoring Common Sense to Federal Procurement (April 15, 2025), and consistent with the Revolutionary FAR Overhaul, Refresh 30 incorporates GSA deviations that align with the revised regulatory framework. The revisions simplify acquisition requirements, remove non-statutory provisions, and promote the use of plain-language clauses and provisions. For details on the GSA deviations referenced below, visit:

- [Acquisition policy library and resources | GSA](#); and
- [Revolutionary FAR Overhaul | Acquisition.GOV](#).

Please note: System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in this solicitation. Contracting officers will rely on representations from offers based on provisions in the solicitation. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.

GSA has held two RFO industry webinars to help navigate changes:
